New Product Announcement: Upgrade Turbos for 2013-2016 Ford F150 3.5L EcoBoost!

BorgWarner Aftermarket North America is pleased to announce the release of upgraded turbochargers for the popular 3.5L EcoBoost, found in the legendary F150, as well as the Transit, Expedition and Navigator.

As a performance upgrade to the OE BorgWarner units found on these vehicles, the upgraded units provide features as follows:

- Forged Milled Wheel (FMW) compressor, increased inducer size from 36.7 to 39.2mm.
- 20% increase in peak flow, supporting up to 600HP* *with appropriate modifications and tuning.
- Updated compressor aero with reduced inertia provides no loss of response.
- BorgWarner is the first-fit supplier, ensuring 100% fitment compatibility with the confidence of original-equipment quality and durability.
- Installation gasket kits are included, and available separately.
- **Product use: For off-road use only in performance race applications**

Product reference and compressor flow comparison data can be found on the following pages.
