When Xtreme Power Meets  
Xtreme Performance

# Winners are Built

Winners aren't born – they are built. Reputations are forged through skill, speed and consistency. Racers push their skills, their cars, and their turbos to extreme limits. When the stakes are high, only the best turbo will take you to the finish line. Garrett G-XRace is built for those who know that winning comes from being the quickest, pass after pass, race after race.

## Garrett G-XRace Turbochargers

### Product Features:

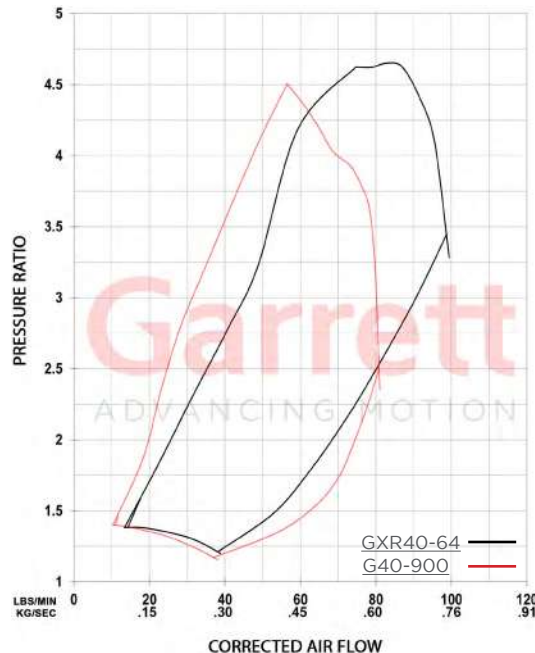

- XBoost Technology increases power and performance
  - +23% compressor flow (GXR40-64 compared to G40-900)
  - Enhanced pressure ratio capability and higher boost pressure
  - Increased efficiency at high flow rates
  - Lower intake temperature
- Lightweight aluminum backplate
- Fully machined flange-style speed sensor port for easy sensor installation and monitoring turbo speed
- Utilizes the same twin-scroll T4 and V-Band turbine housings as G-Series to enable an easy upgrade

## Powered by Decades of Leadership in Motorsport

If you want to be the quickest, the G-XRace Series is your ultimate advantage. Born from decades of powering professional motorsport winners, this turbocharger carries a legacy of proven success. It's made for racers who push the limits to the extreme – and win.

## When Xtreme Power Meets Xtreme Performance

# A Heritage of Innovation

Backed by over 70 years of engineering and innovation, G-XRace turbochargers are engineered by a global team of 1300 engineers across five R&D centers for xtreme durability and xtreme performance.

Approved for use in drag racing classes with compressor wheel inducer limits 64.9. Please verify class rules before purchasing.

**GXR40-64 Compressor Map**

**WARNING:** The use of this product above max turbocharger speed is at the owner's risk, and can result in damage and premature failure. To protect the turbocharger from overspeed when operating, a speed sensor port is machined into the compressor housing for the fitment of speed sensor part numbers 781328-0003 (includes sensor and gauge), 781328-0004 (includes speed sensor), or [G-Smart Bluetooth Module with sensor \(PN 923586-0003\)](#). Sensor Kits sold separately.

\* Performance results of this product are highly dependent upon your vehicle's modifications and tuning/calibration. The horsepower numbers represented above are calculated based strictly on choke flow of the compressor map (total turbo capability), which represents the potential flywheel horsepower.
